

## **How to Download EndNote and Create a Library**

1) Log into MyTU portal

2) Select the **TU Resources** tab

Select **Software Downloads** under **TU Web Services**

Scroll down to EndNote for Windows or EndNote for MacOS X Save the version you need to your desktop.  
This downloads the .zip file.

3) Open the .zip file, then click on and drag the install and license files to the desk top.

4) Run the EndNote executable (setup.exe) to install the software
